WEARING INSTRUCTIONS

- Move any long or curly hair away from your ears.
- Place the adapter in the slot in the helmet. Make sure the adapter is firmly attached to the helmet.
- Open the attachment of the ear muff as wide as possible.
- Slide the ear shells to their lowest position on each side arm.
- Put on the industrial safety helmet.
- Use both hands to push the side arms down one at a time until the head band fully encloses your head.
- Push each side arm up or down one at a time until the ear muff's holder fits comfortably on your head and over your ears.
- The headband must be positioned vertically.
- For optimal comfort and maximum protection, make sure the pressure is distributed evenly.

USER INSTRUCTIONS

The ear muff must be worn at all times while in a noisy environment. Do not take the ear muff off until you have left the area in question. These products may be negatively affected by certain chemical substances. For more information, contact the manufacturer. Incorrect use may result in irreversible damage to your health.

TESTING INSTITUTE

This ear muff has been certified by: BSI Group The Netherlands B.V. (Notify Body No. 2797), John M. Keynesplein 9, 1066 EP Amsterdam, The Netherlands.
