WARNING! THIS IS NOT AN INDUSTRIAL SAFETY HELMET

This bump cap does not protect the wearer against the effects of falling or thrown objects or hanging loads in motion. The product must not be used instead of an industrial safety helmet as specified in EN 397:2012. This bump cap is designed to absorb the energy of an impact through the partial destruction or damaging of the shell and the harness, if present, and although such damage may not be immediately apparent, any bump cap that has been exposed to a heavy impact must be replaced.

To offer sufficient protection, this bump cap must fit or be adjusted to fit the size of the user's head. Users should also be mindful of the danger of altering or removing one of the original components of the bump cap, other than in accordance with the manufacturer's recommendations. Bumpers may not be modified to accommodate attachments in a manner that is not recommended by the bump cap's manufacturer. Do not apply any paint solvents, adhesives or self-adhesive labels in accordance with the manufacturer's instructions.

TESTING INSTITUTE

This bump cap has been certified by: BSI Group The Netherlands B.V. (Notify Body No. 2797), John M. Keynesplein 9, 1066 EP Amsterdam, the Netherlands.
