

Classic Solutions

Entrance Mats • Indoor

Classic Solutions mats feature a slip-resistant rubber backing and a solution-dyed carpet surface designed to stop dust, dirt, and moisture at your door and provide a safe walking surface.

- Solution-dyed nylon fibers provide superior colour and wash fastness.
- The rubber backing prevents curling and cracking in all types of weather.
- LUTRADUR™ primary substrate will not fray, reduces linting, and provides a strong bond between the rubber and the carpet.
- High Twist heat set nylon fibers are resistant against crushing and allow dirt to filter into the mat rather than remaining on top of the carpeted surface.
- Bleach / UV resistant.
- There is 34% postindustrial recycled content in the rubber polymer.
