### Drinking cups BioWare 300ml transparent made of PLA for cold beverages

Our disposable organic 300ml cups are sustainably produced from PLA. Our ecological disposable cups are ideally suited for cold beverages of any kind. You can bank on sustainable products.

#### Product description

The organic cup for cold beverages is made out of PLA (lactic acid from sugars of maize starch) so the cups are made from renewable raw materials. The PLA cup is designed for cold beverages and cold dishes so it is perfect for ice cream, milk shakes and smoothies.

#### Proper use of the product

Cold beverage cups are suitable for the following foods:

- Dry
- Watery
- Greasy
- Sour
- Alcoholic
- Milk products

• under the following temperature-time conditions:

Refrigerator temperature - room temperature (up to 40°C) > 24 h

Maximum filling and storage temperature 40 °C
